Art Unit: 2881

This application is in condition for allowance except for the following formal matters:

***Objected Informalities***

The disclosure is objected to because of the following informalities:

**In The Specification**

Page 3, [0023], "quadrappoles" should be -- quadrupoles --.

Page 6, [0045], "quadrappoles" should be -- quadrupoles --.

Page 6, [0046], "quadrappole" should be -- quadrupole --.

**In The Claims**

Claim 9, line 2, "quadrappoles" should be -- quadrupoles --.

Appropriate correction is required.

***Objected Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the electrospray nozzle for producing electrospray droplets, the electrospray ionization mass spectrometer, and the proton beam as recited in claim 1; and the quadrupoles as recited in claim 9 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure

Art Unit: 2881

number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Claims 1, 9-11 and 14 are allowed.

**Reasons for indicating allowable subject matter**

The prior art fails to disclose a mass spectrometry ionization method having means for exposing electrospray droplets to a proton beam having the energy in a range from 5 to 10 eV as recited in claim 1.

Applicant's arguments filed on 19 September 2005 have been fully considered but they are not persuasive in view of the foregoing reasons. Since, the claims recite the

Art Unit: 2881

method for operating an electrospray ionization mass spectrometer not the chemical process, therefore all the features in the claims must be shown in the drawings.
